

Enrich the Work Experience

eBeam Engage™ quickly transforms any whiteboard or wall surface into a multimedia work environment.

Most interactive whiteboard solutions require the attachment of multiple devices in order to create a media rich work area. As a result hosts are caught running back and forth between the computer, the board and other peripheral devices, causing users to lose focus and become distracted.

eBeam Engage puts everything hosts and users need within arm's reach, allowing for improved work delivery and fluid navigation between curricular resources.

Valuable work time is preserved and users remain engaged when audio visual components, specialized navigation tools, meeting recording and system calibration are contained in one console. eBeam Engage software offers rich content and interactive tools that can be used dynamically from the board and distributed for editing and review.

Connect the entire office area through eBeam Engage and experience an improved work environment.

Highlights

Why eBeam Engage?

- Make content delivery fluid by controlling navigation, sound system and recording functions from one console.

Organizational Benefits

- Quickly and easily install the physically secure eBeam Engage without costly installation or specialized skills or tools.
- Integrate devices using the USB ports and line in/line out audio jacks.

User Benefits

- Create links to commonly used resources with eBeam Home™.
- Access and work with files and applications anywhere, anytime using the wireless mini keyboard with touchpad and laser pointer.
- Use the scroll knob to focus attention on relevant content. Encourage student participation without blocking the display area.
- Record and play back high quality audio visual media with built in microphone and speakers. Distribute or post recordings so students have the ability to review and reinforce concepts.

- High Fidelity JBL® speakers
- Built in microphone
- Line in/line out audio jacks
- One touch recording
- Scroll knob
- Wireless (RF) mini keyboard pre assembled with magnetic sleeve
- eBeam interactive receiver
- Multi function stylus
- Customizable eBeam Home
- Software and curriculum resources
- Security key to unlock unit
- 2 Kensington Lock slots
- 2 USB ports

Technical Specifications

Windows®

- Windows XP, 7 & 8
- Intel Pentium Dual-Core, 2.1GHz
- 2 GB RAM
- 250 MB of available disk space recommended
- CD/DVD ROM drive or Internet connection
- available USB 2.0 or 3.0 port

Macintosh®

- OS 10.6 or higher
- Intel Core Duo 1.5GHz
- 2 GB RAM
- 250 MB of available disk space recommended
- CD/DVD ROM drive or Internet connection
- available USB 2.0 or 3.0 port

Package Contents

- 1 Engage System
- 1 installation template
- 1 security key
- 1 interactive stylus
- 1 package of spare stylus tips
- 2 mounting brackets installed on template with spare adhesive
- 1 RF mini keyboard with sleeve and USB charging cable
- 1 keyboard mounting plate for non magnetic surfaces
- 1 USB cable
- 1 power cable
- 1 power adaptor
- 1 AAA battery
- 1 Quickstart Guide
- eBeam Education Suite on USB key

Engage receiver

- Weight: 2.1 lbs (950 g)
- Dimensions: 31.5 x 2.4 inches (80 x 6 cm)
- Minimum active work area: 17 x 11 inches (43 x 28 cm)
- Maximum active work area: 84 x 60 inches (213 x 152 cm)
- Tracking technology: ultrasound and infrared
- Positional accuracy: +/- 1.5 mm
- speaker output: 18 W
- auxiliary line in/line out ports: X
- USB ports: 2
Connectivity: USB and power cord

Stylus

- weight: 0.8 oz (23 g)
- power: 1 AAA battery
- battery life: 40 hours – approximately 1 year of standard use

Keyboard

- weight: 3.8 oz (108 g)
- power: rechargeable via USB port - no batteries needed.
- connectivity: Radio Frequency (RF) up to 33 ft (10 m)

Warranty

- 1 year limited
- *based on terms and conditions
